Where YOUR safety
ALWAYS comes first!

Our Mission

- To meet the needs of each client by providing high-quality products and services that meet or exceed our client's expectations
- To build trust into our client's relationships
- To understand our client's specific business needs and apply solutions using our company's areas of expertise
- To help our clients meet their needs through the timely, cost effective use of technology

Goals

- Excel in performance
- Sustain managed growth
- Provide personal growth opportunities
- Enhance our contribution to community activities
- Conduct our business ethically and efficiently

Values

- Honesty & Integrity
- Commitment to our Customers
- Commitment to our People
- Promote domestic manufacturing capabilities

Who We Are

ADA Supplies, Inc. is a Small Disadvantaged, Minority, Woman-Owned Business established in 1999. We have strategic alliances with numerous industry leaders to provide a broad array of quality products to Federal, State, and Local governments and commercial customers. Our strategic alliances allow us to help our customers save time and money by providing the products they need to keep their equipment and facilities up and running.

Experience

Our principal and staff have over 30 years of experience in servicing and providing industrial supplies and equipment to the public and private sectors. Our fabrication and customization capabilities complement customers with different applications and requirements to modify their current equipment for ease of use and convenience. By listening to their concerns, we provide ideas to create better solutions and make them a reality. We at ADA Supplies think outside the box; we refit, retrofit, and modify a kit and its contents with any MRO specifications to help our deployed military troops. We aim at making their tools and equipment a lot easier to handle and safer to use. We partner with domestic manufacturing companies to make durable PPE products for better ergonomics that are environmentally safe for our end user.
